3. INTRODUCTION

3.1. BACKGROUND

Section 29 (1) (a) of the Bill of Rights of the Constitution of the Republic of South Africa Act (108 of 1996, as amended) states that: “Everyone has the right...to a basic education, including adult basic education; and to further education, which the state, *through reasonable measures*, must make progressively available and accessible.” NSFAS contributes to the attainment of the rights described in section 29 by providing financial aid to students from poor and working-class families.

Amongst its many legislated responsibilities, in terms of the NSFAS Act 56 of 1999 as amended, NSFAS is established to provide bursaries to eligible students, and to develop criteria and conditions for the granting of bursaries to eligible students in consultation with the Minister of Higher Education.

This document defines the NSFAS eligibility criteria and conditions for granting and administering funding to eligible students studying at an institution in South Africa.

3.2. LEGISLATIVE FRAMEWORK

3.2.1. This policy standard is subject to the following legislation:

- 3.2.1.1. Constitution of the Republic of South Africa (1996).
- 3.2.1.2. Higher Education Act, 1997 (Act 101 of 1997 as amended).
- 3.2.1.3. National Student Financial Aid Scheme Act, 1999 (as amended).
- 3.2.1.4. The Public Management Finance Act 1 of 1999.
- 3.2.1.5. Continuing Education and Training Act.
- 3.2.1.6. Protection of Personal Information Act 4 of 2013.
- 3.2.1.7. Norms and Standards for Funding TVET Colleges.
- 3.2.1.8. Policy on the minimum norms and standards for student housing at public universities (2015)

3.2.2. This policy standard is linked to the implementation of the following policy documents:

- 3.2.2.1. The National Development Plan (2030).
- 3.2.2.2. The White Paper for Post-School Education and Training (2013).
- 3.2.2.3. Strategic Policy Framework on Disability for the Post School Education & Training System (2018).

3.3. PURPOSE

The primary purpose of this policy standard is to:

- 3.3.1. Provide a consistent and fair approach to assess and determine financial and academic eligibility to new applicants and continuing students.
- 3.3.2. Comply with the provisions of the National Student Financial Aid Scheme Act 56 of 1999, and all amendments of the Act.

- 3.3.3. Provide the criteria and conditions for granting of bursaries to eligible students.
- 3.3.4. Provide the criteria and conditions for assessing appeals in respect of NSFAS funding decisions.

3.4. PRINCIPLES

The following principles apply:

- 3.4.1. Section 19(6) of the NSFAS Act specifically provides that "A right to obtain a loan or bursary from the NSFAS cannot be construed from any provision of this Act."
- 3.4.2. NSFAS financial aid is aimed at students from the poor and working class, who meet the NSFAS eligibility criteria as set out in this document.
- 3.4.3. NSFAS seeks to provide ongoing financial aid to students only if the criteria for continued support are met. As such, continued funding is NOT guaranteed and students who are funded by NSFAS are expected to meet ongoing eligibility criteria to continue receiving financial aid support from NSFAS.
- 3.4.4. In the event a student who was financially eligible at the time that they first received funding becomes financially ineligible as a result of cost-of living related increases, NSFAS reserves the right to cancel funding, and reconsider the funding based on the representation made by the student.
- 3.4.5. In the event that a student switches to a different qualification, continued financial support from NSFAS will only be provided if the institution determines that the student is able to complete his/her revised qualification within the N+ Rule.
- 3.4.6. NSFAS assesses the household income as guided by the South African legal framework and considers the legal responsibility that biological parents and legal guardians have with respect to child maintenance, including children 18 years and older.
- 3.4.7. The student funding policy is aimed at being affordable and implementable, such that students are provided with the financial aid to enable them to succeed at attaining their qualification, subject to the parameters of the funding provided by government and the sustainability of the scheme into the future.
- 3.4.8. A distinction is made between continued NSFAS funding criteria and the decision by an institution on whether or not a student progresses academically. This means that a student may not be eligible for NSFAS funding but may be eligible to study further at an institution.
- 3.4.9. NSFAS has, and will continue to expand, access to third party data sources to verify information and data submitted to NSFAS. Students are thus required to submit a duly signed consent form of their declared parents, guardian or verified parental relationship to NSFAS to enable NSFAS to determine the prospective student's financial eligibility.
- 3.4.10. Non-submission of a complete, accurate and duly signed NSFAS consent form would disqualify a student for NSFAS funding due to NSFAS inability to evaluate and determine financial eligibility. Such applications will be closed and regarded as "rejected".

3.5. AUTHORITIES

These guidelines for the NSFAS eligibility criteria and conditions for funding have been approved by the NSFAS Accounting Authority in concurrence with the Minister of Higher Education and Training, in line with the National Student Financial Aid Scheme Act 56 of 1999.

3.7.1. NSFAS is highly dependent on the submission of accurate data from institutions in a timely manner, as well as accurate and complete information from students. Should these not be received, or not received on time, NSFAS processes will be delayed and may result in applications being rejected or continued funding being withdrawn or paused.

3.7.2. Notwithstanding anything contained in this policy, NSFAS' responsibility shall be limited only to the provisions of financial aid in respect of approved cost of study as outlined in this document, subject to the availability of funds.

3.7.3. NSFAS shall not be responsible to fund any item or need which is not specifically provided for in this policy and the terms of the NSFAS Bursary Agreement.

3.7.4. Financial aid is awarded for the first academic term of study only. Funding for subsequent terms is at the discretion of NSFAS, subject to availability of funds and provided the student continues to meet the academic and financial criteria stipulated in this policy.

3.7.5. It is the duty of all persons applying, and/or receiving funding to disclose accurate and complete information to institutions and NSFAS, in relation to their NSFAS funding and which may have an impact on their eligibility assessment.

3.7.6. It is further a duty of all persons in 3.7.5 above to ensure that NSFAS is, at all times, in possession of current, accurate and complete information and that any changes in their circumstances is notified

to NSFAS. NSFAS will in turn, ensure that institutions receive funding decisions that are accurate in a timely manner.

- 3.7.7. In the event that financial aid is extended to any person based on inaccurate, incomplete and/ or outdated information, NSFAS reserves the right to cancel such funding with immediate effect and claim back all funds already disbursed based on such inaccurate and/ or incomplete and/ or outdated information.

4.3. NSFAS FUNDED QUALIFICATIONS

- 4.3.1. SAQA accredited qualifications offered by public institutions (universities and TVETs) for which bursaries are available as approved and communicated by DHET implemented in conjunction with this eligibility criteria.
- 4.3.2. University approved funded qualifications are qualifications that have been accredited by the Council on Higher Education, are registered on the NQF with the institution listed as the originator. These qualifications fall into two broad categories each of which have the following attributes on the NQF:
 - 4.3.2.1. Certificate qualifications are qualifications that have been registered on the NQF, on NQF Level 5 and have a qualification type of Higher Certificate or National Higher Certificate.
 - 4.3.2.2. Undergraduate qualifications are qualifications that have been registered on the NQF on:
 - 4.3.2.2.1. NQF Level 6 and have a qualification type of Advanced Certificate, Diploma (minimum course credits of 240), Diploma (minimum course credits of 360) or National Diploma, or
 - 4.3.2.2.2. NQF Level 7 and have a qualification type of National First Degree (minimum course credits of 360) or
 - 4.3.2.2.3. NQF Level 8 and have a qualification type of National First Degree, or National First Degree (minimum course credits of 480).
 - 4.3.2.2.4. The NSFAS bursary does not provide funding for qualifications above NQF Level 8.
- 4.3.3. TVET College approved funded qualifications fall into four broad categories, each of which have the following attributes.
 - 4.3.3.1. Pre-Vocational Learning Programme (PLP), this qualification is not registered on the NQF

and NSFAS will only fund a student for one academic term on this qualification.

- 4.3.3.2. NATED/Report 191 qualifications which are registered on the NQF as National N certificates. NSFAS will only fund a student for one academic term on this qualification for Report 191 introductory courses.

- 4.3.3.5. NSFAS will not provide funding for qualifications above Report 191 N6.

4.4. FINANCIAL ELIGIBILITY CRITERIA

Financial eligibility criteria are used to assess prospective students applying for funding for the first time, continuing and returning students.

4.4.1. Household income

Household income is applicable to non-SASSA recipients only and is determined as follows:

- 4.4.1.1. Where the applicant is unmarried, household income is the sum of the gross income (from all sources) of the biological (or adoptive) mother, the biological (or adoptive) father and the student/ applicant.
- 4.4.1.2. Where the applicant is under legal guardianship, the household income is the sum of the gross income (from all sources) of the legal guardian and that of the student/applicant.
- 4.4.1.3. Where the applicant is married, the household income (from all sources) is the sum of the gross income of the student's spouse and that of the student/ applicant.
- 4.4.1.4. An Independent Learner who is unmarried and independent of his or her parents and economically self-sufficient will be exempted from providing the NSFAS declaration form.

4.4.2. Social grants recipients (SASSA)

- 4.4.2.1. Any applicant who is a South African Social Security Agency (SASSA) recipient, as validated by NSFAS, automatically meets the financial eligibility criteria and will be eligible for a bursary award if they are registered at an institution and are academically eligible.
- 4.4.2.2. SASSA grant recipients that are eligible for funding include the Foster Care, Care Dependency and Child Support grants.
- 4.4.2.3. All other non- South Africa residents are excluded from the NSFAS funding.

4.4.3. Non-social grants recipients (Non-SASSA)

- 4.4.3.1. All applicants (except those with disabilities), irrespective of when they first registered at an institution will be assessed as financially eligible if the applicant's combined annual household income is R350,000 or less.

4.4.3.2. Applicants with disability will be assessed as financially eligible if the applicant's combined annual household income is R600,000 or less.

4.4.4. **Third party data sources**

4.4.4.1. NSFAS will use any third-party data source, over and above the declared household income to determine an applicant's financial eligibility.

4.4.4.2. All applicants are required to submit complete, accurate and duly signed NSFAS consent forms to enable the NSFAS to assess the student's financial eligibility.

4.5. **ACADEMIC ELIGIBILITY**

4.5.1. **Academic eligibility criteria**

Academic progression criteria will be measured by the percentage of course modules that a student passes in the academic year.

4.5.2. **University academic eligibility criteria**

The criteria are applied as follows to students in universities:

4.5.2.1. Students who receive financial aid from the NSFAS must meet the set academic achievement criteria, to continue being eligible for financial aid.

4.5.2.2. Non- FTEN students must pass 60% of the total modules or courses enrolled in a particular year to be funded in the following academic year.

4.5.3. **TVET academic eligibility criteria**

The criteria are applied as follows to students in **TVET Colleges**:

4.5.3.1. Non- FTEN students must pass 70% of the total modules or courses enrolled in a particular year to be funded in the following academic year.

4.5.3.2. A bursary may only be awarded to students progressing to the next NC (V) level if they passed at least 5 subjects in the previous NC (V) level.

4.5.3.3. A bursary may only be awarded to students progressing to the next Report 191 level if they passed a minimum of 3 subjects in the previous N-Level.

4.5.3.4. Academic progression criteria requirements for continuing students studying occupational programmes will be determined by TVET Colleges, and results shared with NSFAS.

4.5.4. **N+ rule**

4.5.4.1. The N+ Rule sets the outer limits for the duration that a student may receive financial aid from NSFAS, the N+ rule is outlined in 4.5.6 below.

4.5.4.2. A student that is no longer compliant with the University academic progression pathways or exceeds the University N+ rule may not be funded to study at a university or TVET College.

4.5.4.3. Similarly, a student that is no longer compliant with the TVET College academic

progression pathways and exceeds the TVET College N+ rule may not be funded to study at a university.

4.5.5. Academic progression pathways

Only NSFAS approved University and TVET College academic progression pathways are funded and implemented in conjunction with this eligibility criteria and can be described as follows:

- 4.5.5.1. The only approved University progression pathway is from a qualification that has been defined as a certificate qualification to a qualification that has been defined as an undergraduate qualification (refer to section 4.3.2), noting that NSFAS only funds students studying towards their first certificate or undergraduate qualification.
- 4.5.5.2. The approved TVET progression pathways for PLP, NC(V) and Report 191 qualifications are as follows:
 - 4.5.5.2.1. The approved progression pathway from a PLP is to a Report 191 Level 1 qualification or a NC(V) Level 2 qualification.
 - 4.5.5.2.2. Bursary recipients who switch from one programme to another (i.e., from NC(V) to Report 191 programme N1 – N3 or vice-versa) or change programmes within an NC(V) or Report 191 programme during the course of their studies are not eligible for financial assistance, unless the student was an FTF and has completed only one academic term of study.
 - 4.5.5.2.3. Furthermore, bursary recipients who complete NC(V) Level 4 are not eligible for financial assistance should they want to enrol for another NC(V) programme or Report 191 programme N1 – N3.
 - 4.5.5.2.4. Similarly, bursary recipients who complete Report 191 N4 - N6 are not eligible for financial assistance should they want to enrol for another Report 191 programme or an NC(V) programme.

4.5.6. Duration of study

- 4.5.6.1. The University N+ Rule is based on the number of years a student is registered in the higher education sector. The TVET College N+ Rule is based on NSFAS funded academic terms at TVET Colleges. The additional NSFAS funded academic term may be for repeating at any level from the entry academic term to exit the academic term. The N+ Rule does not apply to occupational programmes as these programmes are aligned to employment contracts which do not make provision for the N+1 period of study.
- 4.5.6.2. The N period of study equates to the minimum time required to complete a qualification.
- 4.5.6.3. In the instance of distance university students studying at a non-contact university, the N period of study equates to double the minimum time required to complete the qualification.
- 4.5.6.4. The N+1 Rule applies to all students who receive financial aid from NSFAS.
- 4.5.6.5. All students with disability qualify for N+2.
- 4.5.6.6. The additional funding (denoted by 1 or 2) is applied once over a student's academic career within the education sector (University or TVET College).

- 4.5.6.7. The N+ rule is applied to the qualification that the student is registered for in the relevant academic term. The N thus changes for students who change qualifications from one academic term to the next.
- 4.5.6.8. Where a student has changed their qualification and the remaining N does not accommodate the time required to complete the different qualification, the student will no longer receive NSFAS funding.

4.6. APPEALS

- 4.6.1. A student whose application for financial aid is rejected, or continuing student who did not meet academic progression criteria, may lodge an appeal with the NSFAS.
- 4.6.2. Appeals must be received within the specified timelines as communicate by NSFAS.
- 4.6.3. Appeals will only be considered for students who applied for NSFAS financial aid.
- 4.6.4. The Independent Appeals Tribunal considers all appeals submitted to provide effective management of appeals for funding.
- 4.6.5. The Tribunal consists of external members and the chairperson is an independent person, preferably, with a legal background.
- 4.6.6. Appeals from students who exceed the income thresholds will only be considered if:
 - 4.6.6.1. The financial circumstances of their household have changed since the submission of their application and evidence of this is provided to NSFAS.
 - 4.6.6.2. Students can provide evidence that their household income is indeed below the threshold.
 - 4.6.6.3. A key contributor to their household income has become incapacitated or is deceased since the submission of their application.
 - 4.6.6.4. The applicant has been declared independent of their biological parents by a court and the court has determined that the parents are not responsible for the applicant's maintenance, including the cost of his/ her education.
- 4.6.7. Appeals from students who failed to meet the academic eligibility criteria will only be considered upon proof that:
 - 4.6.7.1. The student is a continuing student who was not a FTEN or FTF student in their previous academic term of study; AND
 - 4.6.7.2. The student's failure to complete their academic term successfully is due to severe ill health for an uninterrupted period of two or more months of the academic term or during examinations, or there has been death in his/ her immediate family during the academic term, or the student was the victim of a violent crime, or the student was pregnant and gave birth during the academic term, and the institution has evaluated the student and completed the NSFAS standard propensity letter confirming the student will

complete their qualification within an additional academic term, OR

- 4.6.7.3. The student with a disability must submit a detailed medical report that indicates that the student failed to complete their academic term due to the nature of their disability, and the institution has evaluated that the student has the propensity to complete their qualification within the additional academic term or
 - 4.6.7.4. The student can provide evidence that the academic results received by NSFAS are incorrect.
 - 4.6.7.5. A continuing student who was a FTEN or FTF student in their previous academic term of study does not need to appeal as the student will automatically be funded for their next academic term, provided that all other eligibility criteria are met and the institution has evaluated that the student has the propensity to complete their qualification within the additional academic term.
- 4.6.8. Appeals from students who no longer meet the N+ Rule will only be considered, upon proof that:
- 4.6.8.1. The student's failure to complete their academic term successfully is due to severe ill health for an uninterrupted period of two or more months of the academic term or during examinations, or there has been death in his/ her immediate family during the academic term, or the student was the victim of a violent crime, or the student was pregnant and gave birth during the academic term, OR

A student with a disability with a medical report which indicates that the student failed to complete their academic term due to the nature of their disability and the institution has evaluated that the student has the propensity to complete their qualification within the additional academic term.
 - 4.6.8.3. The student is a university student who can prove that he/ she has 50% or less final year course credits to complete and will acquire his/ her qualification and the institution has evaluated that the student has the propensity to complete their qualification within an additional academic term. University students who fall into this category will be funded similar to distance university students, provided that their appeal is successful, OR
 - 4.6.8.4. The TVET student who can prove that he/ she has two or less subjects left to complete their Report 191 qualification or three or less subjects to complete their NC(V) Qualification and the institution has evaluated that the student has the propensity to complete their qualification within an additional academic term. TVET students who fall into this category will be funded similar to distance TVET students, provided that their appeal is successful; AND
- 4.6.9. In situations where a student has not been allowed to progress academically by an institution, appeals in relation to this must be directed at the institution.
- 4.6.10. Appeals from students who were rejected for financial aid by NSFAS due to data or information errors submitted by them will only be considered if:
- 4.6.10.1. The error does not relate to an error in the ID number, first name or surname of the student entered on the application – students must submit their correct identity details as it appears on their ID documentation. Failure to do so will result in applications being rejected. Should the application window still be open, students may reapply for funding.

- 4.6.10.2. Students provide sufficient evidence that the data or information submitted was indeed incorrect.
- 4.6.11. Students are not permitted to appeal if:
 - 4.6.11.1. They are registered for a qualification that NSFAS does not fund.
 - 4.6.11.2. They have completed N+2 (N+3 in the case of a student with disability).
 - 4.6.11.3. The detail of the appeal indicates that the student is disclosing different parental or legal guardian information than disclosed in the application, or if the student is now indicating that he/ she is independent which is different to the application.
 - 4.6.11.4. The institution has not submitted their registration record or submitted an incorrect registration record to NSFAS – such queries must be directed to the institution.
- 4.6.12. Failure to provide sufficient and substantive evidence in support of an appeal as required within the time frames as outlined will lead to an appeal being rejected.
- 4.6.13. NSFAS reserves the right to validate all appeal documentation to confirm the validity of the appeal, including third party data sources, and will reject an appeal where the supporting evidence cannot be validated or confirmed.
- 4.6.14. NSFAS reserves the right to reject affidavits as a means of evidentiary support.

This policy is subject to review and revision at least within three years from the year 2025 subject to NSFAS Authority mandate.

11 ANNEXURE ON FUNDING PRINCIPLES

11.1. REGISTERING FOR QUALIFICATIONS THAT ARE FUNDED BY NSFAS

- 11.1.1. The NSFAS only funds a student when they registered on an approved qualification (students may refer to the SAQA website), even if the student meets all other eligibility criteria. This means that a student may be eligible for financial aid and will not receive any funding if they are registered for an ineligible qualification.
- 11.1.2. The NSFAS confirms whether a student is indeed registered on an eligible qualification when it receives the registration data from an institution.
- 11.1.3. In addition, the NSFAS will not fund a qualification that is expired or that is not registered on the NQF. An expired qualification is determined by considering the last enrolment date, last registration date and last achievement date for that qualification.
- 11.1.4. Students are advised to verify that their qualification is indeed funded (and not expired) with their institution prior to registering.

11.2. THE N+ RULE EXPLAINED FOR UNIVERSITY STUDENTS

- 11.2.1. The N+ Rule for University students will continue to be based on the number of years in higher education rather than the number of years funded. The rationale for the rule being applied in this way is based on the principle that the NSFAS is assisting students achieve their first qualification for university students.
- 11.2.2. There is also a fairness element to this - if the number of years funded are counted, a student who is funded from their first year will have to complete their qualification within the required time frames for that qualification. However, a student who is funded from their third year of study, for example, may in fact benefit from additional years to complete their qualification.

11.3. THE N+ RULE EXPLAINED FOR TVET COLLEGE STUDENTS

- 11.3.1. The N+ Rule for TVET Colleges is based on number of academic terms funded, given the shorter cycles that students are funded for and the higher probability that students may exit the system.

11.4. MEETING NSFAS ACADEMIC PERFORMANCE REQUIREMENTS

- 11.4.1. The NSFAS wishes to direct financial aid to students who are both financially and academically deserving.
- 11.4.2. For this reason, over and above the academic requirements of an institution, the NSFAS also has academic performance requirements for students to continue receiving financial aid from one academic term to the next.

11.5. SWITCHING QUALIFICATIONS

- 11.5.1. While the NSFAS does not disallow students from switching qualifications, the number of academic terms that the NSFAS may fund a student will be affected.

11.5.2. Students are advised to take care when switching qualifications and fully understanding the impact on their financial aid from the NSFAS.

11.5.3. Where a student has changed their qualification and the remaining N does not accommodate the time to complete the new qualification, the student will no longer be funded.

11.6. STUDENTS RECEIVING ALLOWANCES FROM THEIR INSTITUTIONS

11.6.1. In many instances (including all universities), the NSFAS pays student allowances to the institution who then pays this to the student.

11.6.2. Some institutions have adopted different policies and practices on how and when these allowances are paid to students.

11.6.3. Students are advised to consult their institution to determine when and how they will receive their allowances.

11.7. DEALING WITH FINANCIAL AID BEING WITHDRAWN

11.7.1. The NSFAS may withdraw its financial aid from students in the following circumstances:

11.7.1.1. The student failed to meet the NSFAS academic eligibility criteria for continuing students.

11.7.1.2. NSFAS has reviewed the student financial eligibility and noted that the student's household income has changed to be beyond the permitted thresholds, even after taking inflationary adjustments into account.

11.7.1.3. A report of fraud has been opened against the student, and the NSFAS has confirmed that the student misrepresented information provided during the application process or to the institution.

11.7.1.4. The NSFAS has discovered that the student has already obtained an undergraduate qualification which was not known to the NSFAS at the time of assessing the application.

11.7.1.5. The student no longer meets one or more eligibility criteria as specified in this policy standard.

11.7.1.6. The student was awarded financial aid in error.

11.7.1.7. The student has been found to have defrauded other NSFAS beneficiaries.

11.7.1.8. The student brings the NSFAS into disrepute.

11.7.2. NSFAS allows students to appeal a decision to withdraw funding prior to finalising this decision. Students are advised to submit their appeals on time, and only to those channels specified by the NSFAS. The use of an incorrect channel to appeal will result in the appeal not being considered by the NSFAS.
